# Handle more Oracle transactions and support more VMs with the Dell PowerEdge R7625 featuring the PowerEdge RAID Controller 12 Series (PERC 12)

Compared to the HPE ProLiant DL380 Gen9 with Smart Array P440ar Controller

By updating your data center hardware with the latest Dell™ PowerEdge™ R7625 servers with PERC 12, you could support more customers at a time making online purchases, booking reservations, and more.

Support more customers

with up to

6.3x

the new orders per minute (NOPM)
