

# Dell XC series solutions powered by Nutanix can boost datacenter efficiency

when combining workloads on a hyperconverged  
Dell™ XC series solution with Nutanix® Acropolis™ and Prism

Do 10 times the work in the same amount of rack space

10 legacy solutions

4 Dell XC730xd-12 appliances

## Gain insight on hardware

DPACK is performance analysis software that can help you characterize your existing performance and resource utilization. Run it in your datacenter to see current limitations, which can guide your upgrade process.

## The advantages of Dell OpenManage™ Essentials and Nutanix Prism

### Familiar tools

Manage your new servers with the same tools

### Updated software

Take advantage of the latest features and functions

### Unified management

Manage and monitor virtual environments in one place
