

Boost database performance in VMware vSAN environments with Toshiba PX05S SAS SSDs and Dell EMC PowerEdge R740xd servers

A Toshiba-Dell EMC™ solution processed more orders per minute, supported more virtual machines, and provided lower latencies than a legacy solution, helping businesses more effectively meet customer demand.

To find out more about the Dell EMC and Toshiba partnership, visit <http://www.dell.com/toshiba> and <https://storage.toshiba.com/dell>
