

UPGRADE YOUR BUSINESS

by upgrading to new Dell™ OptiPlex™ desktops powered by Intel®

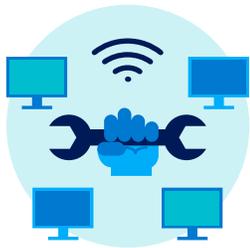

DELL OPTIPLEX
9030 ALL-IN-ONE

DELL OPTIPLEX
9020 MICRO PC

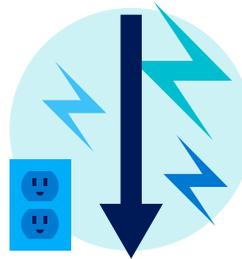

from a legacy
desktop tower

MORE EFFICIENT OUT-OF-BAND MANAGEMENT

\$215 and nearly 8
hours saved for
a single repair

Dell Command | Intel vPro™ Out of Band allows IT to support out-of-band systems remotely, reducing the impact of employee downtime for repairs.

LOWER POWER COSTS

Up to **60%** less power
when idle

Under load, the new Dell OptiPlex desktops used up to 42% less energy. A large business could save up to \$306,000 over four years.*

VALUABLE TIME SAVINGS

Up to **23hrs** annually per
employee

With up to 145% better system performance, a large business could save 900,000 hours over four years—giving you back time employees could use for other tasks.*

SIGNIFICANT SPACE SAVINGS

Up to **60%** less
required
surface area

Smaller form factors could revitalize employee workspaces and make room for innovation. A large business could save over 7,700 square feet.*

MORE CONNECTIVITY OPTIONS

Support up to 10X faster data transfer speeds with USB 3.0 and leverage newer, more efficient peripherals.

HDMI†

Wireless-AC

USB 3.0

DisplayPort
