

# Harness the power of the HP ZBook Firefly 14 G10 A Mobile Workstation powered by an AMD Ryzen™ 7 PRO 7840HS processor and work unplugged for a full business day—or more

A comparison to the Dell™ Precision 3480 Workstation with an Intel®  
Core™ i7-1370P vPro® processor

## PassMark PerformanceTest 11 benchmark

Performance score | Higher is better

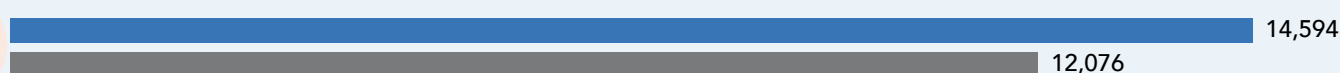

10.0% higher score

## Cinebench R23 multi-core benchmark

Performance score | Higher is better

20.8% higher score

● HP ZBook Firefly 14 G10 A Mobile Workstation PC ● Dell Precision 3480 Workstation

## MobileMark 25 "best power efficiency" mode battery life testing (250 nits) benchmark

Higher is better

Battery life (hh:mm)

Minutes per WHr

Performance score

● HP ZBook Firefly 14 G10 A Mobile Workstation PC ● Dell Precision 3480 Workstation

## Thermal performance and surface temps during a sustained Cinebench R23 workload

Sustained performance score (higher is better)

Underside temp (lower is better)

● HP ZBook Firefly 14 G10 A Mobile Workstation PC ● Dell Precision 3480 Workstation

Work comfortably  
with a cooler,  
quiet system  
based on hot-spot temp and  
acoustic readings under load
