

## DIMENSIONS OF ULTRA-THIN TABLETS

For comparison to the Dell™ Venue™ 8 7000 Series tablet, we identified the thinnest tablets on the market, which included devices from the following vendors: Acer®, Apple®, Amazon®, ASUS®, Samsung, and Sony®. To identify the thinnest current tablets, we used data from industry Web sites.<sup>1</sup> Figure 1 compares the systems using publically available data at each vendor’s respective Web site. We gathered this data at the links provided on 04/02/2015 (click on model names to follow them) and report only what each vendor disclosed on their sites. Dell provided us with information about the Dell Venue 8 7000 Series tablet.

## ABOUT PRINCIPLED TECHNOLOGIES

Principled Technologies, Inc.  
1007 Slater Road, Suite 300  
Durham, NC, 27703  
[www.principledtechnologies.com](http://www.principledtechnologies.com)

We provide industry-leading technology assessment and fact-based marketing services. We bring to every assignment extensive experience with and expertise in all aspects of technology testing and analysis, from researching new technologies, to developing new methodologies, to testing with existing and new tools.

When the assessment is complete, we know how to present the results to a broad range of target audiences. We provide our clients with the materials they need, from market-focused data to use in their own collateral to custom sales aids, such as test reports, performance assessments, and white papers. Every document reflects the results of our trusted independent analysis.

We provide customized services that focus on our clients' individual requirements. Whether the technology involves hardware, software, Web sites, or services, we offer the experience, expertise, and tools to help our clients assess how it will fare against its competition, its performance, its market readiness, and its quality and reliability.

Our founders, Mark L. Van Name and Bill Catchings, have worked together in technology assessment for over 20 years. As journalists, they published over a thousand articles on a wide array of technology subjects. They created and led the Ziff-Davis Benchmark Operation, which developed such industry-standard benchmarks as Ziff Davis Media's Winstone and WebBench. They founded and led eTesting Labs, and after the acquisition of that company by Lionbridge Technologies were the head and CTO of VeriTest.
